

SAMUDRA KAR

UI/UX Designer • Front-End Developer

Bangalore, Karnataka | samudrakar8@gmail.com | +91 70745 85779

PROFILE

Computer Science undergraduate and UI/UX designer who pairs a builder's front-end skill set with a designer's eye for clarity. Experience spans solo product design, front-end implementation, and cross-functional hackathon work, with a consistent focus on intuitive navigation, visual hierarchy, and accessibility. Comfortable owning a product's user experience end to end — from user flows and wireframes through to a working, responsive interface.

CORE SKILLS

- User-Centered Design
- Information Architecture
- Color Theory
- Wireframing & Prototyping
- Responsive Web Design
- Canva
- User Flows & Journey Mapping
- Visual Design & Typography
- HTML / CSS / Python

PROJECTS & EXPERIENCE

Akasha Lens — Product Design & User Experience | Hackathon Project

- Designed the end-to-end user experience for an AI-powered satellite image cloud-reconstruction platform, translating a technically complex pipeline into an approachable interface.
- Planned user flows and interface layouts that simplified how users visualized raw satellite imagery alongside AI-generated outputs.
- Partnered with a multidisciplinary team under hackathon time constraints to align product concept, technical feasibility, and user needs.

SkyCast — Weather Forecast Application | UI Design & Front-End Development

- Designed and built a responsive weather application with a clean, glanceable interface prioritizing at-a-glance readability.
- Integrated the OpenWeatherMap API to power real-time location-based weather search and live data updates.
- Built end to end using HTML, CSS, Flask, and Python — covering both interface design and back-end integration.

Personal Portfolio Website | UI/UX Design & Front-End Development

- Designed and developed a fully responsive personal portfolio with a clean, modern visual identity.
- Prioritized intuitive navigation, clear visual hierarchy, and accessibility best practices throughout the design.
- Built using HTML, CSS, and FastAPI, bridging front-end design with practical back-end delivery.

EDUCATION

B.Tech, Computer Science & Engineering — Chanakya University, Bengaluru, Karnataka • 2024 – 2028

Higher Secondary (Class XII) — Delhi Public School, Siliguri, West Bengal

Secondary (Class X) — Good Shepherd School, Bagdogra, West Bengal
